GitHub: github.com/VaibhavMittalData Mobile: +91-6284609196

Skills

- **Languages:** Python, C, C++, SQL, HTM, CSS
- **Frameworks & Libraries:** NumPy, Pandas, Matplotlib, Seaborn Streamlit, Scikit-learn, PyTorch, Open CV, Fast API, LangChain,
- **Big Data & databases:** PySpark, Hadoop, Databricks, MySQL
- **Data Analysis & Visualization:** Power BI, Tableau, Advanced Excel, Exploratory Data Analysis, Hypothesis Testing
- **Tools/Platforms:** MySQL, Power BI, Advanced Excel, Tableau, Databricks, AI Tools
- **Core Competencies:** Deep Learning, NLP, Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPS)
- **Soft Skills:** Team Player, Leadership, Adaptability, Attention to Detail, Logical Thinking

Internship

IISPPR - Research and Development Organization | Link Sept 2025 – Oct 2025

Data Analyst Intern

- Worked as a **Data Analyst Intern** on a real-world group project, handling data cleaning, Exploratory Data Analysis (EDA), and insight generation on a dataset containing **200,000+ rows**, improving data quality and deriving actionable insights
- Designed an **interactive dashboard** to present **key trends** and business insights clearly, contributing to effective decision-making and improving the overall analytical workflow.
- **Tech stacks used: Python and its libraries**
- **Tools used: Power BI, Excel, MySQL**

Projects

- **AI Mood-Based Chatbot | GitHub** Feb 2026 – Mar 2026
  - Built an AI chatbot with multiple personalities (Angry, Funny, Sad) using LLMs and integrated LangChain with Groq's LLaMA-3.3-70B model for real-time responses.
  - Implemented Retrieval-Augmented Generation (RAG) allowing users to upload PDFs/files and chat with their data using embeddings and similarity search.
  - Developed a Streamlit-based interface with session memory to maintain conversational context.
  - **Tech Stack Used**: **Python, Streamlit, LangChain, Groq API,RAG**
- **Image Classification Model for Car Accident Detection | GitHub** Jan 2026 – Feb 2026
  - Trained a CNN-based image classification model **using PyTorch** for binary classification, with custom architecture.
  - Achieved **92% accuracy** through Adam optimization and cross-entropy loss, with model validation on a separate test dataset.
  - Complete ML pipeline including data preprocessing, augmentation, model training, evaluation (accuracy, confusion matrix, classification report).
  - **Tech Stack Used: Python, PyTorch, Torchvision, Scikit-learn**
- **Machine Learning–Based Cancer Prediction Model | GitHub** Oct 2025 – Nov 2025
  - Engineered a machine learning–based cancer prediction model using clinical and lifestyle data to identify high-risk patients and support early diagnosis.
  - Conducted data preprocessing and exploratory data analysis to enhance data quality, reliability, and model performance.
  - Implemented and evaluated multiple ML algorithms, selecting the best model based on accuracy and key evaluation metrics to aid healthcare decision-making.
  - **Tech Stack Used: Python, NumPy, Pandas, Scikit-learn, Matplotlib, Streamlit**

Certificates

- **Microsoft** Career Essentials in **Data Analysis, LinkedIn**
- **Google** Data Analytics Professional Certificate, **Coursera**
- **IBM** Data Science **with Python – Level 2 Certificate**, **IBM Skills Build**

Achievements

Leet Code/Hacker Rank/ Geeks for Geeks

Solved 300+ problems on LeetCode and 100+ problems on GFG earned a 5-star rating in C++ and SQL, along with a 4-star rating in Python

President & Founder of Zenvest Dec 2023 - Present

Successfully led a team of **50+ members** to organize **10+ large-scale events**, strengthening cross-functional collaboration and stakeholder partnerships.

Education

Lovely Professional University Punjab, India

Bachelor of Technology Computer Science and Engineering, CGPA: 7.38 Aug 2023 – Aug 2027

Sudesh Vatika Convent Sen. Sec. School Punjab, India

Intermediate, Percentage: 68 Apr 2022 - Mar 2023

Shivalik Public School Punjab, India

Matriculation, Percentage: 84 Apr 2020 - Mar 2021
